

Saturday, Aug. 2, 2014 – Friday, August 8 2014

Note: Information in this update is intended to highlight the week's major grizzly bear management actions and is not intended to be a comprehensive detailing of all management activities. Information in this update is draft and subject to change as details from the field become available. Finalized annual reporting of this information is published in the annual report of the Interagency Grizzly Bear Study Team available at: <http://www.nrmssc.usgs.gov/products/IGBST>

Verified Grizzly Bear Killed Livestock

- Verified one (1) calf killed and one calf injured by a grizzly bear in the Cody area.
- Verified two (2) calves and one (1) yearling killed or injured by grizzly bears on Forest Service grazing allotments in the Pinedale Region.
- Verified one (1) yearling killed by grizzly bears on private grazing lands in the Pinedale Region.

Research and Monitoring

- Conducted moth-site only grizzly bear observation flights. A total of 219 bears were observed in two days.
- Initiated trapping efforts on the Wind River Reservation on the edge of current distribution for monitoring purposes.

Bear Management (Captures, Relocations, and Removals)

- Captured and removed an adult male grizzly bear from private lands west of Thermopolis for repeated livestock conflicts.
- Captured and released a non-target grizzly bear at a cattle depredation site in the Pinedale Region. The bear was collared and released on site for monitoring purposes.

Law Enforcement and Related Activities

- Nothing to report.

Outreach and Education

- Presented grizzly bear safety information at the annual Cora Fire Department Picnic.
